The **Democratic Party of Battista** (Italian: *Partito Democratico Battista*, **PDB**) is a sovereignist and social democratic party in the Battista Region of Lucite. The party was established in 2025 with the creation of the Battista Region in the Lucitan Republic.

The Democratic Party of Battista is the main opposition party in the Battistan Assembly. In contrast to the center-right NPAF which currently leads the region, the party's platform is social democracy, social liberalism, and Battistan sovereignty. The party advocates for greater devolution for the region and even independence.
