The **Neoliberal Peoples' Action Front (NPAF)** is a political party in the Lucitan Republic. It was founded in 2023 by _Travis and MattDB as a centrist liberal political party. From 2023-2024, NPAF was the governing party of the United Republic and several of its states.

During the Second Empire of Lucite (2024-2025) the NPAF was dormant at a national level but still existed as a regional political party. The party was reinstated at a national level with the foundation of the Lucitan Republic in 2025.

_Travis left the party in 2024 to found the United Republic Labor Party, however in 2025 he rejoined NPAF and resigned the leadership of the Labor party.

Regional branches

As well as being a national political party in Lucite, the party has two official regional branches:
