

Voice of The Republic

Overview

The Voice of The Republic is a political party mainly representing libertarian interests within the United Republic. It advocates for the beliefs of maximum personal and digital freedoms and a laissez-faire economy, also pushing for fiscally conservative policies such as reduced taxes, and pro-business tendencies. The party, despite being extremely social-liberal, is staunchly pro-death penalty, despite its advocacy for lenience on petty crimes and lower-grade misdemeanors.

The party leader is CheesyJeb, who previously lead the Second, Third, and Fourth Republics of Ellester (16 April, 2023 to February 2024)
